PROFILE

Full-Stack Developer with expertise in **React**, **Tailwind**, **TypeScript**, and **Node.js**. I specialize in creating efficient and scalable web solutions, managing everything from the user interface to the server-side logic.

WORKING EXPERIENCE

Deevopp

Feb 2025 - Aug 2025

'Developed and maintained web applications using React and Node.js.'

'Implemented RESTful APIs and integrated with various third-party services such as Google APIs.'

'Collaborated with cross-functional teams to define, design, and ship new features.'

ID For Ideas

Jun 2024

Responsible for implementing interface logic and optimizing design for different devices, using tools such as JavaScript, CSS3, Tailwind, and functional methodologies.

The main goal was to build an interface that not only looked good, but was also efficient, scalable, and perfectly adapted to the user's needs.

STUDIES

JavaScript University | 2023

I learned to implement advanced machine learning models using libraries like **React js**, highlighting the versatility and potential of **JavaScript** in this field.

Master on SQL | 2024

I learned to design and optimize efficient databases, as well as to use advanced queries to extract, analyze, and manage large volumes of data.

Learn Fundamentals Of Node.js Programming | 2024

I specialized in backend development using Node.js. I learned to create scalable and efficient server applications by applying software design and architecture principles.
