LANGUAGES

Spanish (**Native**)

English (**B1**)

German (**A1**)

SKILLS

- **HTML**
- **CSS**
- **JAVASCRIPT**
- **REACT JS**
- **BOOTSTRAP**
- **TYPESCRIPT**
- **NODE JS**
- **EXPRESSJS**
- **JSONWEBTOKEN**
- **POSTGRESQL**
- **MYSQL**
- **MONGODB**
- **GIT**

PROFILE

Back-End Developer with a focus on TypeScript, NodeJS, ReactJS, and ExpressJS. I aim to create advanced web solutions using efficient and maintainable programming methods.

PROJECTS

Ventu-Api

Jun 2024

I led the backend development of Ventu-api. An API designed for business management, including sales, customer administration, and finance.

Tech stack:

- **NodeJS**
- **TypeScrip**t
- **JsonWebToken**
- **ExpressJS**
- **MySQL**

Image-optimizator

Jan 2024

I developed and designed this application for image optimization and compression, significantly improving image handling efficiency and loading speed in web projects.

Tech stack:

- **NodeJS**
- **JavaScrip**t
- **ExpressJS**
- **Bootstrap**

Ventu-UI

Nov 2024

I led the UX/UI design and development of Ventu, an application that facilitates business management and administration with efficient tools for any user.

Tech stack:

- **ReactJS**
- **TypeScript**

STUDIES

JavaScript University | 2023

I learned to implement advanced machine learning models using libraries like **React js**, highlighting the versatility and potential of **JavaScript** in this field.

Master on SQL | 2024

I learned to design and optimize efficient databases, as well as to use advanced queries to extract, analyze, and manage large volumes of data.

Learn Fundamentals Of Node.js Programming | 2024

I specialized in backend development using Node.js. I learned to create scalable and efficient server applications by applying software design and architecture principles.
